

Exercices forces

lundi, 8 mars 2021 09:13

1C. Exercices sur les forces 1

1). Nommer clairement et complètement les forces dessinées (flèches) agissant sur les objets suivants, d'après la liste vue en cours. Dire s'il s'agit de forces à distance ou de contact. Observez bien les points d'application.

2). En vous inspirant des exemples du cours et de l'exercice précédent, dessiner et nommer clairement toutes les forces agissant sur les objets représentés.

$T = 8^\circ\text{C}$

6. Ballon coincé entre deux planches lisses
